### Shipping/handling Charges

The shipping/handling charger for your order is \$3.50. I ship via US Postal Service.

The charge is based on an average first class postage, plus a small handling charge to help with the costs of driving to town to deliver the order to the Post Office.

### Washington State Sales Tax

You will only pay sales tax if I am shipping this order to an address in Washington State.

WA now requires vendors to charge the percentage of sales tax for the specific local area where the goods are being delivered. Please note the percent charged in your area and multiply times the sub-total above to figure the amount of sales tax due on this order.
